

Cohort-Level Bid/Ask Depth for Realistic Options Backtests

Halcyon Waters (@Halcyon_Waters) — crypto options data & intelligence · X post · 25 Jul 2026

Most iron condor backtests use mid price. We use cohort-level bid/ask depth across Deribit, Derive, Thalex to test what you'd actually fill at cayolargo.fi

Author bio: "Crypto options data & intelligence: vol surface, 37 Greeks, cohort positioning, 3+ exchanges. Built by ex-bank quants — cayolargo.fi with REST API."
