

A Simple S&P 100 Breakout System from the RealTest Examples File

Ignis (@ignis55) — X post, 29 August 2026
<https://x.com/ignis55/status/2093754279710363733>

Simple trend-following strategy:

- S&P 100 universe
- 100-day breakout entry
- Only fresh breakouts
- Rank by 100-day ROC
- Chande-Kroll trailing stop
- Risk 0.5% of equity per trade (volatility-adjusted)

That's the entire strategy.
And it's from RealTest examples file!
